💼 Professional Experience

Frontend Developer Intern, *OyeBusy Technologies* ⬀   Sep 2022 – Jun 2023 | WFH, India
- ***Duration*** - 9 Months
- ***Technologies*** - Nextjs, Redux
- ***Intergration*** - SEO, Google Map, SSR, Rest API, Swiper, Modular CSS
- ***Dev Tools*** - TypeScript, Eslint, Husky, Prettier, Sass
- ***Achievement*** - Joined as a Partner

- Worked on **4 major user workflows** and integrated **25+ backend APIs, 50+ hotfixes and 3 production release** for the customer front-end of a household-service aggregator website, with SEO best practices.

- Onboarded and mentored 2 new developer interns onto the project, maximizing synergy of the team.

- Collaborated on project-wide code quality by working with linters (ESLint & stack specific plugins), automated formatting(Prettier), TS-Config aliasing, and pre-submit checks using Husky.

- Maintained a well-organized folder structure and used meaningful comments to aid comprehension. Utilized TypeScript's strong typing to enhance code maintainability. Dynamically imported components conditionally without affecting UX.

🧠 Skills

Stack	**General**	**Dev Tools**	**Styling**
React, Next Js, Redux, Nodejs, MongoDB	Html, CSS, JS	TypeScript, Eslint	CSS, Sass, Tailwind, Bootstrap

---

- Implemented several features including add to cart, authentication, cart, delivery address, and dummy payment getaway.

📰 Publications

JB Jio Store, Website for Jio Phone Users,   2019

Krishna Kumar Prajapati ⧉

I published this website due to heavy demand of my youtube subscribers. they want a platform where the jio phone supported apps are organized at a single place.

So I Launched and managed a website **for Real Users** on Blogger.com, generating an average of **30,000 daily visits**. Responded to user comments in a timely and customer-centric manner, effectively addressing issues and providing solutions. Solicited and incorporated feedback from users to continuously improve the website's user experience, resulting in a high level of satisfaction.
